

Electrolyte Capsules & Dispensers

For Immediate Release:

Paceline Products Signs as Exclusive USA Distributor for SaltStick[®] Electrolyte Capsules and Dispensers.

Newbury Park, CA -- June 27, 2006 -- The SaltStick[™] line includes innovative electrolyte capsules and dispensers, and is produced by Toker Engineering LLC, Newbury Park, CA. The dispensers provide "on the go" dispensing and ingestion of electrolytes. SaltStick[™] products are now distributed exclusively in the USA through

Paceline Products, Inc. of Kansas City, MO. "We are thrilled to take on SaltStick products mid-season. The dispensers are completely unique, with no similar products on the market. They work beautifully to dispense electrolyte capsules, and athletes should find them invaluable" says Steve Mathews, president of Paceline Products, Inc. The SaltStick[™] dispensers are water-resistant and fit inside most bicycle handlebars. The SaltStick[™] Caps are electrolyte capsules formulated as the most comprehensive electrolyte supplement on the market today. Jonathan Toker, Ph.D. chemist and President of Toker Engineering LLC, confirms that the SaltStick[™] dispensers and capsules are being used successfully by top professional athletes worldwide, and are gathering significant media attention. Look for SaltStick[™] at Paceline Products' Interbike booth # 4982 in Las Vegas, September 27-29, 2006.
